

## SPI200 Focusing Module

The SPI200 Focusing Module is designed to generate a laser spot of approximately 100-micron diameter at a distance of approximately 4'' from a SPI R4 High Power Fiber Laser with QCS beam delivery system.

### Measured Focal Spot

Input beam diameter (1/e<sup>2</sup> intensity points): 6-mm

Input beam wavelength: 1070nm

Measured Gaussian diameter (1/e<sup>2</sup> intensity points): 116 microns

Measured focal distance: 115 mm
